***Please note that the above chart does not allow for dance floors, bars, service tables, etc. Sizing may also vary depending on what size tables and chairs that you use.**

***If tent is being setup on concrete, we will drill holes in concrete that are approximately 3/4" in diameter to install concrete anchors. If tent is being setup on asphalt, we will drill holes that are approximately 1 1/2" in diameter to run stakes through. All holes will be filled with concrete or asphalt patch when tent is removed.**
